### ABOUT ME

I was born in a small town in Montenegro, Berane. I finished high school in Danilovgrad and University studies in UCG in Podgorica. I was president of Student parliament of Montenegro (department of mathematics) for four years. As a president of Student association of Math Department I organised web programming and Wordpress courses, IT Conferences in Žabljak, Webinar about Artificial science (2021) for Math and Computer Science students. I volunteered for a year in NVO "Tinker Igramiranje" and worked there as Python teacher/tutor for secondary school kids. Also, since 2017 I have worked in secondary school as Math and Informatics teacher. For the last few years I have worked with Logate academy and have taught Python and Web programming for high school students. I am math and programming enthusiast and I always want some new projects and challenges.

### WORK EXPERIENCE

01/09/2017 – CURRENT – Podgorica, Montenegro
